Treffen mit Professor Schäfer

gepostet von Dennis_Knospe um 22:53:52 15.10.2009

Heute habe ich mich mit Professor Schäfer vom Fachgebiet Elektrische Antriebstechnik und seinem wissenschaftlichen Mitarbeiter Rayk Grune getroffen.

Anlass für das Treffen war das beidseitige Interesse an der Formula Student Electric und einer Zusammenarbeit. Bei dem Treffen wurden neben informellen und organisatorischen Punkten auch direkt Ideen bezüglich der Motorenauslegung und dessen Auswahl besprochen.

Für die weitere Zusammenarbeit steht uns Rayk Grune als direkter Ansprechpartner am Fachgebiet Elektrische Antriebstechnik zur Verfügung und unterstützt uns dort auch bei der Suche nach fähigen Mitgliedern für unser Team.

Ich freue mich über das sehr positiv verlaufene Gespräch und über die zukünftige Zusammenarbeit.

Gruß

Dennis

Jul07 here is what i did to get rich i put about 6 action games to my favs and i play all of them 3x i try my best and so.. and every day i got about 12000 i put 10000 in my bank then with my 2000 left overs I go to the garage sale they have good deals but it takes about 9 minutes so have patients after you get something ussually get books or things you think that its expensive but dont get gross food then sell them play gorm ball you somethimes get rare stuff out of it and you can find random things too.I play a couple games like deck ball cuase you could get doubloons out of the game (most pirate games could get you doubloons) and save the doubloon if you play deck ball well you should get about 3 doubloon cions every day but I dont sell them yet instead i keep them, keep doing this then after ten days you should have about 110000 np and then you should have about 30 doubloon coins now at this time i sell all my doubloons but you could save the doubloon if you want to plus you even have the money you sold from the garage sale and by then you should also have cool item from gormball you could sell or keep for you gallery , so in just a week ina half you could make tons and tons of np P.S if you want to restock have about 5000 np and if you want np look between explore and neomail right there this you answer .and this site and other sites have great games cheats by your side and if you keep doing this you could get even more money then amagined!!!!!!!!!!!!!!

Im from.Spanish descent and I was clneinag out my great grandfathers attic out when I came across the chest. It was padlocked and it was heavy. So I broke the lock and opened it up and I discovered a ton of.gold coins. They dont look modern with all the engravings on it and stamps and its not like a perfect circle coin like we had today. It appears to be 1600s 1700s, like a spanish armada treasure or something. Idk what do u guys think ? Its not a huge chest a smallish one. <http://hytuti.com> [url=<http://lovxufmxce.com>][lovxufmxce](http://lovxufmxce.com)[/url] [link=<http://xhtwcxjoj.com>][xhtwcxjoj](http://xhtwcxjoj.com)[/link]

I see a number of bulloin' companies but the charges are way above the spot rate. If someone were to buy couple of 100 grams of physical gold for investment, how can one do that without paying too much premium? I know there are some Exchange Traded Funds too that track the price of gold, but off late commodity tracking funds have come under lot of fire.Any ideas?

If you?re not going to print edibles all the time, you could send me the awtorrk we could work out a deal for me to print them for you! I?m charging \$9 per sheet for frosting sheet custom designs, then it?s \$5 shipping

for domestic US up to 10 sheets together. Let me know! Good luck with your Batman party!

When you acquire a company (vertical integration, company acquiring its supplier), what value is normally used to determine what the acquired company is worth? The shareholder's equity on the balance sheet would be my first answer, but that does not reflect the value of the company's shares on the market. Would the acquirer have to pay the market value per share times the amount of outstanding shares?

I have acquired a spanish gold doubloon, in excellent condition, that I'm trying to sell. I have absolutely no idea how to go about getting it appraised, let alone how to sell it. I would feel more comfortable selling it in person and i do NOT want to pawn it. Any information you could give me would be helpful, thanks! i just found out its actually an Austrian 1915 4 ducat gold piece. <http://dllvkte.com>

I understand that there is a lot of treasure out there, but it seems that when the wreck of a Galleon is found, there is usually millions of dollars worth of treasure in them. A number of these wrecks have been found, but there are still a lot out there. I can't seem to find any information on these lost wrecks. So does anybody know of any of them?

Huzzah! Another awesome chtepar! :3I like this new character *nodnod* I totally didn't see that coming XD! voted that the warden recognises Jinn; I can't imagine how she would know him or what impact it would have on the story as a whole but that;s why I voted XD I really wanna know *beams*Colouring your commission now :3..Also I seem to have absent-mindedly doodled Jinn on my phone-book OwO;.-= Rhinne s last blog .. =-.
