Projektpräsentation bei Continental

gepostet von Dennis_Knospe um 21:18:58 05.11.2009

Moin,

heute waren Philipp, Christian, Stefan und ich bei Continental am Standort Berlin um das Projekt zedX vorzustellen.

Nach einer kurzen Vorstellung aller Anwesenden und der Aktivitäten von Continental allgemein und im speziellen am Standort Berlin stellten wir dann das Projekt in einer kurzen Präsentation vor. Es ergaben sich angeregte Gespräche zur Formula Student und zu unseren Konzepten und Ideen.

Im Laufe der nächsten Woche wird sich zeigen, ob wir die anwesenden Verantwortlichen von Continental von unserem Konzept überzeugen und als neuen Partner gewinnen konnten.

Ich möchte mich an dieser Stelle auch noch einmal recht herzlich bei Dr. Schweiger und seinen Kollegen für die Einladung und die Möglichkeit bedanken, dass wir unser Projekt vorstellen durften.

Dennis

Criminal law exists to mark stcoey's abhorrence of certain types of behaviour. Because the State carries out prosecutions, where a wrongful action has been committed, the victim can secure redress regardless of personal circumstances. By this I mean that if you are a poor person who has been the victim of crime, you are able to make a complaint against the person who has committed the offence notwithstanding your lack of funds. My expectation is that such a person would receive the same treatment as a wealthy or powerful person who had been the victim of crime and that if a wealthy or powerful person was believed to have committed the crime, that person would stand trial and, if convicted, be sentenced in the same way as would a person in humbler circumstances. Of course, this doesn't always happen, as we have noted a number of powerful politicians recently getting away with offences for which ordinary people would be prosecuted, but that is the theory. It would be a bad thing for the system if people could bribe their way out of trouble or, as happens in Italy, people could pay a fine to avoid serving a prison sentence. This may be a means of raising revenue, but it seems unfair to say the least of it.

Ich bin heute so irre drauf, dass ich selbst beim Betrachten meenis Feuerzeugs schon lachen muss. Warum?
Es ist beerenfarben und diesbezfglich fiel mir folgender Anmachspruch ein (Achtung Jungs !) Mein
Feuerzeug ffor die Zigarette danach passt sehr zu deinem gleichfarben geschmackvoll eingerichteten
Schlafzimmer. Jungs, falls dieser Spruch mal geholfen haben sollte (wenn der auch so derart flach ist *gg),
dann lasst es mich bitte wissen und vor allem gebt mir einen aus !

Thanks for your blog post. A few things i would like to contribute is that computer memory must be purchased if your computer can't cope with anything you do with it. One can add two RAM memory boards of 1GB each, as an example, but not certainly one of 1GB and one of 2GB. One should make sure the maker's documentation for one's PC to ensure what type of memory space is needed.

I was basically want to know if you ever considered replacing the design of your website? It is well written; I really like what you've got to say. But maybe you can include a little more in the way of content so people can connect with it better. You've got an awful lot of text for only having one or two graphics. Maybe you can space it out better?

Jul06 I wish to show thanks to this website for rescuing me from this dilemma. Just after researching throughout the world wide web and seeing suggestions that were not helpful, I figured my life was done. Living without the solutions to the problems you've sorted out through this site is a crucial case, as well as ones that might have in a negative way damaged my entire career if I had not come across your website. Your actual mastery and kindness in playing with the whole lot was useful. I don't know what I would've done if I hadn't come upon such a point like this. It's possible to at this moment look ahead to my future. Thanks a lot very much for the professional and sensible guide. I will not think twice to endorse the sites to anybody who needs direction about this topic. <http://vmqjevdpdck.com> [url=http://tavkhhljom.com/]tavkhhljom[/url]
